STEAMER SEIZED
The Hague, Sept. 26.—A steamer of the Batavia Line was seized today by German warships and taken into Zeebrugge.

Society

Mr. and Mrs. Ronda Buchanan spent yesterday in Charlotte.

Miss Amy Sellers returned last night after spending several days in Charlotte and Wadesboro.

Mrs. Jack Harper and little daughter, Miss Katherine of Gastonia were guests of Mrs. R. A. Grimes today.

Mr. and Mrs. John W. Robinson and two children left today for Jacksonville, Tampa and St. Petersburg, Fla., where they will spend ten days.

Reception for Teachers

The following invitation has been issued to the teachers of the graded schools by the club women of Hickory:

"The Club women of Hickory invite you September the thirteenth at three, To the home of Mrs. J. W. Elliott Where the graded school teachers will meet."

And give you a warm welcome, too. As you start the school work among us. This reception is given for you. The city council, patrons and friends of the school are also cordially invited.

SOME THRILLING ACTS AT GASTON COUNTY FAIR

Gastonia, N. C., Sept. 26.—Thrilling, sensational, hair-raising—these are but a few of the adjectives that might be used in describing the mammoth free acts provided by the management for the second annual Gaston County Fair to be held in Gastonia October 3rd to 7th, inclusive.

One of these, the double-barreled balloon ascension, will be seen here for the first time in the south. The balloonist ascends to a height of 4,000 feet. He is packed inside of a cannon attached to the balloon. At a pistol signal from the ground he ignites an explosive which shoots him far out into space. He descends a thousand feet in a parachute. The cannon automatically cut away from the balloon and descends to the earth in a parachute of its own.

It is the most daring aeronautic act ever seen in this country and is by itself worth a trip to the fair. On Wednesday the aeronaut will give a straight balloon ascension. Thursday he will give the triple parachute cut-away. Friday he will give the balloon ascension with the cannon act as described above. Saturday he will give a balloon ascension on with a double parachute cut away. If you fail to see this you have missed something that you may never have an opportunity to see again.

Another free act is that by Miss Margaret Quincy, the famous high diver and fancy swimmer. Miss Quincy dives from a height of 75 feet into a pool of water three and a half feet deep and gives a daily exhibition of fancy swimming. This is a magnificent act and one you cannot afford to miss.

LUXEMBURG IRON

(By the Associated Press)
Amsterdam, Netherlands, Sept. 26.—The Luxemburg iron manufacturers have prolonged their contract with the Association of German Smelting Furnaces to the year 1920, according to the correspondent of the "Tribune." Up to the year 1910 the iron manufacturers in the grand duchy were allied to the smelting furnaces in Lorraine, but in 1911 a part of them joined the big German association and the rest shortly afterwards followed this example.

Prompt Clothes Service for Travelers Here.

If you're in town for a day or so, you'll appreciate the way you can walk into this store and get what you want quick.

NEWTON CREAMERY TALK

The meeting of the farmers Saturday to discuss the creamery proposition resulted in decision to locate the plant at Newton, and a committee was appointed to meet tonight to draft a charter and appoint a sub-committee on location.

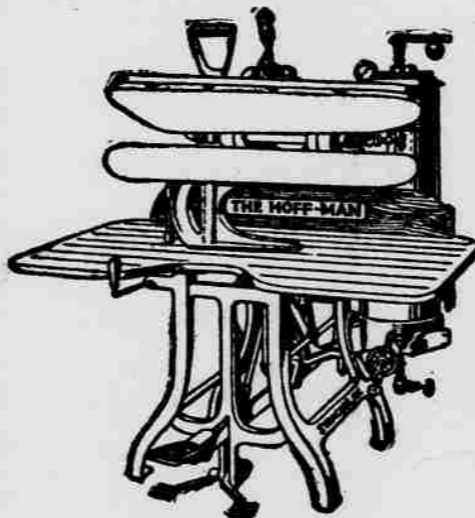

The charter committee is composed of W. B. Gaither, L. H. Seitz, H. P. Lutz, A. D. Haren, P. P. E. Fry, J. Y. Killian and Thomas Edwards. These will meet tonight in W. B. Gaither's office and complete the charter amendments.

They are to appoint the sub-committee, which will investigate the question of a site, and will consider temporary locations, until a permanent building can be erected.

The meeting was well attended and about 400 cows were reported with \$2,500 of stock subscribed. The committee will solicit a few more shares of stock to complete the necessary capital.

Newton is very much pleased with the decision of the farmers and is glad that the creamery is to be located here.

The number of cows pledged does not include a good many that will later be brought into the creamery herd. The Dutch Dairy Farm with their splendid herds will not come in for a time, being under contract to furnish cream. A good many more than 400 will eventually be supplying the creamery. —Enterprise.
